(1:12).

If you go now on the KF Store this minute you'll see a new addition added, read it what it says. REMOTE. (1:14). Now in the next few weeks once we complete this cycle. .. 2 weeks from now we don't announce it. We can reach you where you are, you don't need to come to Linz. .. You are in N Pole you get stuck in the ice, we can get you out. You are in Australia you want to go to NY, we can do that. This is a temporary development, We have to get people to see. get people to accept it, because we are used to raveling 18 - 20 hours on a flight from one point to another .. or car

Now it's a new advanced T. You telling me how you can get me from N Pole to Linz , when you get stuck. I prepared you years ago , but you never understood it. I'll explain this in more detail in the teaching tomorrow. But primarily , go back you want to find the position of your soul in the head ... through the structure we setup , we prepare you for flight from Sidney to Vienna in less than a minute. . The T is that advanced ..

(2:16).

You can buy tickets for it. we want 200 people to register ...

In the next steps it will take a lot of negotiations internationally.

You don't even need to come to Linz anymore. You want to fly from Sidney to NY. ..

When we developed

In maybe 2 years time we do the same thing with positioning on the moon, or Jupiter .. Now when I say, the new T has come in, you do not know what Juggernaut has hit mankind. It's a massive iceberg.

If we go, teach you step by step this is the new machine, we take you for this and that. It would have taken years. If we spend so much money trying to cleanup the CO2, for the mess humankind has created, it will be a lot. We are concentrating on bringing this T very rapidly forward. (1:18). that we don't stop using the car ... the car is virtually zero ..

We have to come to an agreement with the Austrian government in the next few weeks, that they open a Customs in KF HQ Linz. Where people come in, they are allowed to come in because you are here in one instance. The T is that advanced. When I say this is a T never seen before, we prepared you for it. Go on the Store and see what it says, you have 2 types, mobile and from Linz. We just allocated the first 200, because from then on we have to handle governments around the world to go in bigger numbers. Because you can go from Africa to NY in seconds, we are not releasing this T to public, it's too ... it will make a lot of complication. A flight from Sidney, to NY you have a cancer, ?? body because you appear in a different dimension (D), it's already done (cancer gone when transmute body) . Now you understand, (1:20). what Juggernaut has hit humanity.

We said the biggest revolution in science has hit the man with discovery of the wheel. ?/ change to 4 legs and wheels instead of him walking. and ?? This is an discovery of plasma . Scientists up to now always tried to change molecules and 1 atom to an atom, they never realized the atom has a soul, if you move that soul the atom will move with you, it doesn't matter where you go, it takes a mutation of it.

I am not interested to carry you as with a shirt and wallet in your pocket. I am interested to carry you as a soul, when you appear in NY you are there.

We have brought the T forward this way that it will change. The change is here, it's not going to be here. Today ... man has known, we are in position for the first number of people to go through it next week. (1:22).

When

We are open enough we can accept the failure the change ...

I talked to KS .. they said, when the time of Christ to come, the Anti-Christ will bring such a system. That we show the Christ is on his way. So have we become the Anti-Christ or have we become the Christ?

We need to understand it's not any more making Gans's, Med-Bed, can I cure my cancer. . .

in that process

Maybe you need more cancer because your soul is talking different what you are talking with your lips.

(:19:30 time mark of R copy > 64:30 minutes ahead)

This evolution was not possible, (1:24). if Mitra wasn't amongst us. You will understand very soon what it means. You'll see the change. We have to sort out a little bit ..

As long as you have a good stereo headphones, Samsung or whatever , which with the system is actually perfect you can be moved.

People who go in the last stage will be given a mobile locked in position given position

This is the practical side of the teaching which Rick wants understand the practical

It's a change it's not just a test flight. Something which we worked for years and years. Now it's possible. Because we have brought a number of scientists which we trust to be able to bring that transition. (1:26) .Some of the people who go through the system are KF employees, but nobody knows, we never announce who they are. They are KS, been for years. We have mixed them in the structure that we know what is needed ...

Because we have to have a confirmation, to know what is going on, how good the system is. you will see bigger picture

We are not going to waste our time with what WL leaders are doing. We change the position. every structure is here for us to do our work .. ???

How do you think the UFOs you see .. all turn up to earth they don't go somewhere else. It's not coincidental, they are preset to be. Same as what you do fly a plane from London to NY. (1:28). .. that T already exists .

The subscription is mankind has to accept peace.

We'll talk more about this in detail in tomorrows teaching and there on. We set the course for change.

Any questions .

Q: .. is there any advantage to people who have been around the KF Nano , or the man on the street who goes into the system. ?

K- Not really , but . we taught different aspects of the application can be used by man. But when you look at the new space FS carries everything you just talk (1:30). I didn't teach anything which was not to be used by man. .. you have to understand where it fits ..

We are not going to fight the Rothschild's and the control they have over the financial affairs of it, and the Illuminati's whatever you call them. We developed a T they have no control over, financial control becomes irrelevant We're not fighting, you've seen KF always kept away from fighting these people. Because we know why do we need to work

with a peasant This is how level they are, ?? they say structural change and you'll see it. It's there. Man kind has to understand this T step by step, otherwise it's a magic, Then those magicians who call themselves religious leaders will abuse it. .. I millions of you knows the T ..

We just sent a notice to Tesla his T belongs to KF. It's already patent free. You cannot claim a patent, we gave them 7 days, and within 7 days they took the claim off. (1:32). The option is still there ...

2 to 3000 years of development nothing has changed ..

If you need to go to supermarket few seconds you're there

(1:34).

The time of time wasting .. it takes us 20 hours to travel to China ...

Now you can do the same thing in seconds .. Go back to the teaching.

Get a good set of stereo headphones and find the position of your soul. That teaching is for today ..

Nobody knows you are Chinese ..

(1:36).

Mobile phone with (stereo ) headphones connected . .

Any other questions.

K- It's there its open we have to bring it We setup One Nation One Planet we decide our affairs from now on. You are not aware of what has just come up since last Saturday. (1:38). New cycle beginning of One Nation when you can travel. localities will tell you what they want. You get in a bed dying with Corona , a virus in Hong Kong, you get on it, by the time you get to NY there is no sign of Corona, because you go though the transformation. But you have to understand what is the bigger plan, It's not just for this planet.

If this planet gets hit by another meteorite we can extract all its citizens, instantaneously. This is the capability of this T. If you are father s, daughter ...

We have to secure the national securities, ... the abuse. Some time the interest have to be put up outside the we have to establish .. we have UC ..

(1:40).

We take you up and land where we want, in the future you decide ..

it's a right of every man It will take a few months years to learn it .

We have to let the man to develop it, otherwise it will become ..

Any other question

Q: It was my wish (1:42). Because of my illness I am afraid to come to Linz

K- What is your problem

Q: my enzyme are too fast and active ..

K- take a flight We do not know what you come out with .. (1:44).

Q: I will do ...

K- Let me explain. We do not claim anything . We say it's a test ..

A lot of work have been done for these things  
(1:46).

(1:48).

K- We did preliminary tests on these for depression CFS Chronic Fatigue Syndrome ,  
MS ...

(1:50).

For the first time I can feed my mother .. she's back to full time work.

We done a lot with CFS Fibromyalgia,

Q: I have a lot of Gans's

K- We go back to what we are here for. The lunch of the new system ..  
(1:52).

The first 10 people are already booked for Monday..

The change is here, and we cannot (stop it) change it. .. it cannot be avoided anymore. the  
is here. WE have set everything up that when you travel from use Keshe Coin if you  
want to.

(1:54).

We back it with the T we have. from the manufacturing  
from what we earn out of what we produce ..

a lot of things in background now become applicable .

A lot of change, governments will complain because they want control

The way we prepare you in Linz to go through the 3 systems. You do that through your  
headphones. But we prepare you for the flight, it's not just to go. (1:56). Every time you  
go to take a flight you have to be prepared for it, that the STM, STP and the P are ready

to take that .. they go together. That's why you go through these 3 steps, harmonize that you don't leave 1 piece behind when you go into the system.

Then comes a question do we need hospitals health centers, where during the duration of the travel you have already been fixed. These are universal travel systems not a man travel system

Any other question

Q: Mosveq, we are planning to .. We are adapting the Bengali workshop to Saturday to have Hindi and Bengali ..

K- You haven't invited me ..

Q:

(talking about languages etc ..\_

(2:00).

K- This new system we are offering from today and Saturday will bring the change in transportation and Transmutation (T&T). People who come with us .... you come in with no preset condition. you come in with your soul .. .. because you might have a lot of ideas , but in fact you don't want to do because of something else. (2:02).

We'll ask some of you to do certain type of flights for us ...

go from Rome to NY, have a meal with them , pick something up like fork or spoon. .. take a picture . The systems are set it's for materialize objects ..

In another system go see your mother who died 30 years ago .. have a dinner . (2:04).

See if you can bring that bottle wine back... it will not because it was not created in D of matter state. These are the tests we want to do. ..

to bring man to a new D. Then we'll see next step.

R: 2 basic approaches to these systems. focus your attention and another way not to have preset intentions .

K- .. but you have to understand what a very clear definition separation between the 2. The intention and detachment. When you go into these systems you have to be detached but know your intentions. Any intention which is attached to anything in physicality (P) at this moment in time you might see problem with it. Listen to what John said on Sunday in American teaching.

I sat in front of John when he went through the system

I watched the change

(2:06).

Then he tells you it's like falling in love. When you fall in love you become detached.

That's the emotion of the matter state when you go in the first He explains to you very clearly, it's not the feeling of not just a kiss on the cheek, he says. I watched many KS

going through these systems. I watched Chinese military man, most powerful man going through these system and coming out the most humblest man I know. People with a fear going in the coming out finding hope.

We gave you the MaGrav power generator ... now you see the FS there to power. I am not interested in the pollution on this planet with time it come out so nobody gets ill (from cleaning too fast) .. (2:08) . We'll see the change ..

There are a few who cannot do. Look at the new option we have We don't need you to be in Linz. Need a very good mobile phone and very good (stereo) headset. the implants in the body, that directly works with the soul, you can link up and you travel. that's ?? ?/ instead of using stereo systems.

Any other question

Q: Saleena .. I told you before about my experiences with traveling with the soul .  
K- yeah, your experiences are, many people have had this experience. This is these experiences by many people has. (2:10). I listened to your talk before, and if you were in my seat. I hear these things quite regularly, from different people, different shape or form. ..

We see a lot of people go through the phases. .. elevation of the Soul and travel the way we have brought out is not exclusivity of the KF KS. When we claim that, we have come to arrogance. This is the knowledge that once some people through the strength of the soul can test. And some people by the mistakes they make

That's a clear cut. So many people, not just this generation, generations before when you get elevation of the soul, you can do things. part of it is because we reached that point. There's a beautiful Chinese proverb .. it says ?? hardship make you thing, thinking makes you wise, and wisdom makes you rich. human kind has been through too much hardship, and at some point in that hardship has become wise. In that wisdom sometimes becomes rich to be able to use the wisdom of the U. So it's not exclusivity. Christ did on the cross. We might get excited because it's our experience, we accept it because ?? it's there a reality. This is why I said, when people come off the FS in Linz , and people travel with us from their destination in Linz they tell us a lot of things ... (2:12). we accept it, because that was the whole purpose, elevation. ?? not the soul, for you to be able to do things you did not know you could do. It's not exclusivity.

Q: Yes but my question is now, few years when I woke up in morning, You know the cotton ball with rice in it, I felt like cotton ball early in the morning, that I am not in the bed, I am inside something, cotton ball. ..

K- You see, but the thing is, we have members of the top guy in KF, and other people have watched them doing it, without them knowing it. They do all sorts of things. They have reached that maturity of soul. What you tell .. we see a lot of. Don't forget I sit in a position that all the information comes up to me. .. or people share with me what is done, what is going on. IN KF we have many people who experience in different way because

they ?? feel in security, they feel for comfort, .. pleasure. You reflect it in how you want it. Maybe being in the cotton wool is the way you were brought up, is a comfort, so you reflect it that way, and you become the rice. WE have people who go through different emotions. This knowledge is the K of U, it's not exclusivity. We are just teaching more, to become knowledge, .. independent, and we are in control.

Some of us achieve it before. At the age of 8 or 9, I could do everything which I am trying to do for you today, (2:14). Traveling at a young age, for me it was just a hobby to do in the morning or in the evening ?? too. Then I could ask people, did you see me, do you remember. And they said, how do you know that. Because I was there. It's what we elevate, .. understand with it. It's not exclusivity, we are just showing the tools then the man can ?? do it.

Any other question.

Q: .. Could you help us to understand strengthening of the soul vs. enlightening of the soul? repeats

K- It's not versus, they usually come together. When you become enlightened you become stronger. When you are enlightened you see a different way. When you are stronger in the soul you become enlightened. you shine, you get access to more. (2:16).

Buddha did this. Buddha is one of the only what I call, prophet Messengers who managed to get to part of this. Because Buddha more or less, became one of those detached ones, not attachments. Moses attached himself. Christ was, attached himself to something very pleasurable. And Mohammad got attached to both pleasure and the power, and the material world. Buddha was one of the few, in partially went that way, and he received both the enlightenment and the strength.

R: So how does the word elevation work into that, would it be part of the

K- strengthening. R: enlightening .. K- Yeah, it's part of both the enlightening and strengthening. That's the way we see it, .. can be explained

R; So when we wish for elevation of others, does that mean they go through a strengthening of the soul , which ..

K- would they gain enlightenment, yeah. It is like a light, you have to shine on something and if you absorbs it, and lights up.

.. when you have children there are things you buy in the market. (2:18). which is a butterfly or star or a moon. and you put them on the walls and ceiling. ... During the day it is just what it is. But what it is during the day it absorbs energy, and then when night comes it all lights up. It's the same with the soul, it absorbs so much and when the time comes you enlighten, we light up, we share, we give. No difference.

I always said, I detached myself from the material world, I live a comfortable life, But I don't live like a hermit. But my job is to enlighten, day and night, to give, for it that when somebody sees it, they will be enlightened to ?? . .. somebody on the soul needed it. Then you can see how it works. That's ?? ?? our job. We can make exclusivity of these

glasses and make millions of it. But it was there ?? to gain the knowledge, what we were looking for, that it can be added to the system (EU) which is there now . If I would have commercialized KF T we could have put all the millionaires of the world to ?? ?? but to me it doesn't matter, the richer you are, the less you take and I always said that. When you are a pauper you die on the street they just put you in a bag. When you are a rich man, they take all the debts under your name. (2:20). that he wasn't a pauper ?? under his name.

We are here to find ways to make life easier for the others and our what I call, ?? grace will come on its own. They are looking for a MaGrav system, we taught the MaGrav S , I keep on telling you look at its fields. When you go into FEU you cannot fly if you don't have a MaGrav S in a power position . in the PI power you release the fields and we have shown it even in the Vertical Units, .. You look for the crumb, we gave you the Rolls Royce. If you can't see it ??

Even the MaGrav systems you have, it just needs adjustment, you do it, you can produce. Nobody listens. When we offered you the cascading, was the purpose to be done correctly, you have a generator. But if you cascade in the PI system you see the beauty of the ?? God. But in the field strength, not in the matter state.

When you go to Linz and sit in the FEU, don't touch anything, if you touch we will remove (you) ??? ? Just sit and it's set to do the job, go through the experience, Just have a look, you'll see 2 MaGravs around you. (2:22).

Any other question

R: you mentioned earlier to travel freely as a right, basically. Could you talk about that more, .. a universal phenomenon. light travels freely until it encounters Inertia of some sort, I assume other entities travel freely as a right of the U, is that the way it works

K- As life is a right so is freedom to travel. We have restricted ourselves to time and space. When you travel in D of soul you don't have such a thing. When you travel in the D of the soul there should be no limitation of where you cannot go and do. It is a right, not a privilege. You experience it. You will go through it. (2:24). Should not be who tells you where not to go .. not be a pollution just because you can use it. have the knowledge. It has to become a privilege that you appreciate what you have. Traveling the span of U surface of this planet should be the same as you go to the N or S Pole. There are no customs to check in or out .. It is the only position of this planet you don't need a visa for.

Q: .. (2:26) . passing not only (from point A to B) is everything passing through the center , through the Creator ?

K- I understand what you talking about, no.

Q:

K- No, no, you don't get that privilege ..

Q:

K- .. I f you are sitting in London and go to Paris .. do you  
... No it's not just to go through the center no. If I understood you correctly.  
Q: (2:28).

R: You did mention earlier about arousing the emotion of love in this procedure, of the initiation and debriefing of parts of the experience, would that be connecting with that center?

K- We all carry that center within us. It's not every atom and soul has a center. if we can go, become aware of that center and go through it as us, it's a different ball game. We are aware of it, we are not option to use it ?? unless some ?? do If you live in the north of country and capital in in the south do you always go through the capital in the N just because you know there is a capital. Souls that reach to level of STC then they can go that way. It's not a privilege, it's a gift. (2:30).

Any other question call it a day

Please go through understanding of , if you understand everything we taught from the very first beginning the fields rays , Iranian space travel , MaGrav Gans, fields interaction put that all together what is in the FEU We have to put all the parts before we put the whole thing together . We brought in the EU .. if you take a flight what would be the next process of the MaGrav S..  
How would we develop the next step .

(2: 32).

I have to go thank you
